

- UHMW Tivar 88 and Ramex Titanium Sheet
- All Virgin Polymers Including High Density and Low Density Polyethylene Sheets
- Nylon Solid Stock for Fabrication of Bearings and Alignment Products
- Broad Range of Plastic Sheet, Rod, Tube, Tubing and Film

- Factory-certified repair centers located throughout North America
- Maintenance and repair for Hansen Industrial Gearboxes and enclosed gear drives of other brands
- Application Upgrades
- Technical and Maintenance Expertise
- Field Service

- Wire Screen Deck Service
- Sizing Equipment
- Screen Deck Products

- Mist Elimination
- Air Treatment
- AgHort
- Spot Climate Control

- Filter Carts
- Elements
- Filtration Systems
- Breather Kits

- Medium & High Voltage Industrial AC Induction Motors
- Reverse Engineered AC Induction Motors - "Drop in Replacements"
- Multi-Level Medium Voltage Drives

- Solutions for Oil & Gas, Petrochemical & Refinery, Industry & Environmental
- Mechanical Construction Services: Welding, Machining, Fabrication & Metrology Services
- EPC, Design-Assist, Owner's Engineering & Construction Management
- Plant Outage & Maintenance Services, Instrumentation & Control, Cyber & Perimeter Security, Process Safety

- Supplier to Industrial, Mining, Locomotive, and Transit Markets- Proven performance since 1920
- Gearboxes - Authorized source for Ljungstrom Air Preheaters- Manufacturer of new gearboxes, rebuilder of used gearboxes, repairs, and parts support

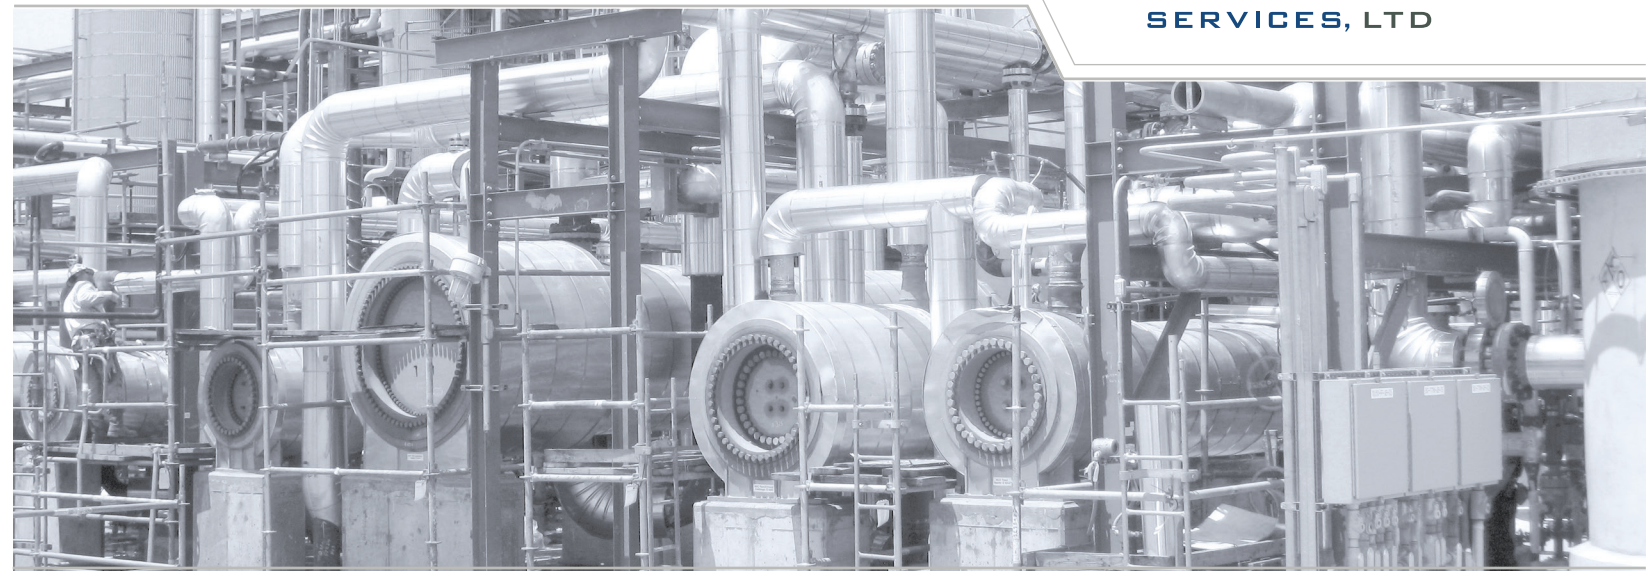

- World class manufacture Plate and Frame Heat Exchangers and Temp-Plate heat transfer surface products designed to provide you worry-free, highly efficient heat transfer solutions
- Accu-Therm - Plate and frame heat exchangers
- Temp-Plate - Inflated heat transfer surface
- PlateCoil, Pillow Plate, EconoCoil, Free Flow, Heat Recovery Banks, Plate and Frame Services, ect.

- Fabrication of boiler components, pressure parts, and pressure vessels from engineering through final assembly
- Industries served include: OEMs, Utilities, Non-Utilities, Cogeneration Facilities, Waste to Energy, Pulp & Paper Mills, Marine, Petrochemical, Sugar, and Construction
- All boiler parts are fully engineered, fabricated, tested and stamped in accordance with ASME, Section I, IV, or VIII

*"Creating Economic Solutions"*

*"We are here to keep your Business in Business"*

- Field thermal spray coating applications in boilers, pressure vessels, tanks, ID Fans, SDA's
- Field sandblasting of boilers, penthouses, back pass, pressure vessels, tanks
- Mechanical Services
- Shop coatings of boiler tube panels, single tubes, wear plates, pump parts, plunger rods, ID fan blades

- Boiler Tube Supply and Tube Panels
- Tube Shields and Tube Shield Clips
- Supply of Superheat, Reheat, Economizer, etc.
- Ductwork and Handcuff Assemblies

- Cooling Tower – Design, Construction, Inspections, Maintenance, Parts, and Repair

- Industry leader in Air Cooled Condensers
- Manufacturing direct and indirect dry cooling systems
- Single-Row Condenser (SRC ®) are manufactured at our own fully owned state-of-the-art factories

- Chimney & Silo Stack Repair
- Tanks & Vessels
- Heavy Structures
- Fire Proofing
- Pipe Rehabilitation
- Concrete Repair
- Corrosion Control
- Water Proofing

- Engineered Metal Expansion Joints – Duct
- Dampers – Louver, Guillotine, Gas Flow
- Coal Mill Joints
- Duct Fabrication

- Ceramic Fabrication, Engineering, Brick Supply
- Ceramic On-site Installation
- Trowelable Ceramics

- Inspection and repair of tubular air preheaters, heat exchangers, and clinker coolers
- Safety Services, Standby Rescue, Consulting, Onsite Training, Equipment Rental
- High Angle Inspections

- Complete Heat Exchangers Supply (any size)
- Low to High Pressure Feedwater Heaters
- Field Maintenance Services for all models of Heat Exchangers and Feedwater Heaters
- Lube Oil Coolers, Condenser Retubing

- Pressure Pipe Elastomer Expansion Joints for Piping System

- Complete Conveyor Products Manufacturer
- Primary and Secondary Belt Cleaners, Idlers, Transfer Point Design and Steep Angle Accessories
- Load Zone Support, Skirting and Dust Control, Arrowhead Pulley Lagging, Wear Liners
- Conveyor Safety Products and Conveyor Accessories

- Provide technical services for air preheaters
- Structural steel fabricating and forming capabilities including sheering, rolling, punching, etc.
- Providing field contract and repair services specializing in Ljungstrom and Rothemule air heaters
- Sheet Metal fabrications capabilities primarily 20GA - 7GA materials

- Industrial equipment repair and maintenance
- Metal Fabrication and installation
- Servicing Power Generation, pulp & paper, mining, cement industry, oil & gas, food and beverage industry, agricultural industry & conveyors
- Supply laborers, welders, millwrights & more

- Industry Leader - Engineered Elastomer Duct Expansion Joints
- Metallic Duct Fabrication and design

- New or Repair of Fans, Housings, Liners, Dampers, Bearings, Motors
- Airfoil, Backward Inclined, Forward Curved, High Pressure, Radial Tip, Adjustable Pitch fans

- Turbo-Toc Turbine Oil Conditioners
- Mini-Vac Vacuum Distillation Technology
- Technology Specializing in Moisture and Particulate Removal from Lube Oils
- Portable Filtration Carts, High Performance Filters

- Concrete Inspection Repair & Restoration
- Pipe Maintenance & Repair
- Corrosion Control & Protection
- Moisture Control & Waterproofing

- Metal Engineered Bellows
- Flexible Metal Hose
- Pressure Pipe Joints

- Manufacture and design custom industrial centrifugal fans, axial fans, dust collectors
- Provide products for many markets API/petroleum, tunnel ventilation, pulp and paper, mining, power generation
- Specialize in retrofitting existing systems

- Conveyor Idlers with Permaseal III Seal Design
- Conveyor Replacement Cans and Idlers for Continental & Hewett Robbins Conveyor Systems
- Conveyor Accessories

- Tangentially Fired Boiler Engineering and Products
- ASME, Paper Mill, Water Treatment Engineering
- Windbox/Burner/Exhauster Products • Low – NOX Burners
- Mill Fire Detection Systems • OFA, SOFA, COFA Design and Supply

- Dry Sorbent Injection Technologies
- Electrostatic Precipitators
- Dry & Wet Flue Gas
- Clean Stack for SO3
- Dry Acid Gas Systems (DAGS)
- Fabric Filter Systems (Reverse Gas or Pulse Jet)
- Flue Gas Desulfurization (FD) Systems

- Air Filtration Systems and Filter Elements
- Air Filtration Engineering
- Air, Gas, and Liquid Pipeline
- Oil Exhaust Filters

- Pattern, casting, machining and assembly
- Wear Resistant Castings
- Pulverizer Wear Parts

- Centrifugal Pump Repairs, Parts and Service for Your Industry Worldwide
- In-Shop, In-Field Supervision/Repair
- Specialize in Boiler Feed Pump Repairs

- Engineered pumping solutions to improve service life in corrosive and/or abrasive services
- Single and Multi-Stage pumps designed to the application with multiple metallurgies available, as well as SiCcast® mineral cast material
- SiConit®- Silicon Carbide coatings for component repairs and material upgrades

- Super Sucker Vacuum Trucks
- Durasucker – Liquids Vacuum Truck
- Camel for Municipal System
- Vactor, Guzzler and Super Sucker Parts

- Pulveriser Mill wear parts for all common mill designs
- Pulverised Fuel Piping requirements
- Wear Resistant, and structural castings for Power Stations
- Nuclear Power Station accredited supplier of high integrity castings
